

# fiberdome<sup>®</sup>

Fiberglass dry bulk storage tanks.

MADE  
IN THE  
USA

CHEMICALS • MINERALS • FOODS • PLASTICS

# The Dry Bulk Storage Solution:

## **Fiberdome has over 3 decades of fiberglass fabrication and design . . .**

this means commitment and quality. Fiberdome has pioneered and perfected a fiberglass tank to out-perform any other tank on the market. Our unique fiberglass construction ensures material flow, economical, trouble-free and reliable storage. Fiberdome is known for their quality of excellence beginning from the factory.

## **Fiberglass is the strongest, most durable material available today . . .**

stronger tensile strength than steel and literally dent proof. Fiberglass conductivity means no wide range of temperature fluctuation between the outside air and the interior temperatures, eliminating condensation which can hamper material flow. Stored material remains constant longer. Every tank here is built from molded, reinforced, fiberglass panels designed to fit tightly together. All the seams are sealed with gasketing nitrile. Seams may also be fibreglassed and permanently encapsulated after assembly. For clean, aesthetically appealing, dry storage with no denting, corrosion or rust and a 5 year warranty, Fiberdome is your only solution.

## **Fiberdome fiberglass dry storage tanks are available in . . .**

FDA & USDA approved, heat resistant, fire retardant and chemical resistant materials. The perfect solution for foods, minerals, chemicals, plastics and more. Fiberdome dry storage tanks are designed to be integrated into almost all loading and unloading systems. Fiberdome's engineering staff uses computer design and drafting to ensure that your tanks are tailored to your exact requirements.

## **Fiberdome dry bulk storage tanks are designed for safety . . .**

and ease of operation. Standard features include a 24" diameter, easy access sealed roof manway with laminated approach stairway and OSHA approved railing, along with OSHA approved ladders and safety cage.

**For Safe, Dependable, Quality Bulk Dry Storage with Maximum Flexibility, durability and aesthetics . . . Fiberdome is THE Solution!**

# Fiberdome Fiberglass Dry Bulk Storage Tanks:

**MODEL #2129**  
1,450 cu. ft. capacity.  
Goose Island Brewery - IL

OSHA approved ladders and cages are constructed of hot dip galvanized steel. All ladder assemblies meet ANSI standards.

Factory assembled tanks are easily transported and erected at your site. Our trained & experienced installation crews work with you to guarantee proper installation.

**MODEL #2120**  
1,000 cu. ft. capacity.  
Calcium Chloride Storage  
Milwaukee County - WI

**MODEL #2135**  
2,050 cu. ft. capacity.  
High Protein Seed Hulls  
Harrison, NJ

**MODEL #2105**  
525 cu. ft. capacity.  
Old Wyndham Brewery - Wyndham, CT

Standard laminated approach roof stairway with OSHA approved safety railing. 24" diameter roof manway.

**MODEL #2120**  
1,000 cu. ft. capacity.  
Borax Storage - Spencer, WI

Optional & Custom Hoppers Available

- Full Installation and Assembly
- Stainless Steel Hardware
- Full Internal Sealed Fiberglass Encapsulation
- Internal FDA & USDA

## Available Options:

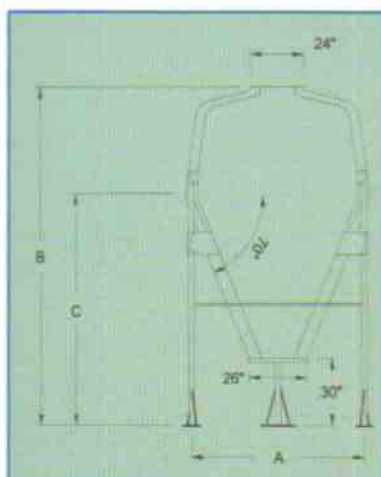

- Custom Pipe Nozzles & Flanges (Stub or Threaded)
- Hatches and Side Wall Mountings
- OSHA approved Connecting Crosswalks & Offset Platforms

- Explosion Relief Valve
- Level Indicators
- Heat Resistant/Fire Retardant
- Steel or Stainless Pneumatic Fill Systems
